Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 2816

1. The amendment filed on 1/27/06 has been received and entered in the case.

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

3. Claims 1, 3, 4, 6-9, 11, 12, 14-17, 19, 20 and 22-27 are rejected under 35 U.S.C. 103(a) as being unpatentable over Li et al in view of any one of Self et al '308, Self et al '532, Bar-Niv, Oman et al and Eggebrecht et al, and further in view of any one of Lenk, Chesavage '626, Locker et al, Doblar et al, Smith et al, Yabuki et al and Chesavage '350.

See paragraph three of the previous office action for the details of this rejection.

4. Claims 5, 13 and 21 are rejected under 35 U.S.C. 103(a) as being unpatentable over Li et al in view of any one of Self et al '308, Self et al '532, Bar-Niv, Oman et al and Eggebrecht et al, and further in view of any one of Lenk, Chesavage '626, Locker et al, Doblar et al, Smith et al, Yabuki et al and Chesavage '350 as applied to claims 4, 12 and 20 above, and further in view of Coleman.

See paragraph four of the previous office action for the details of this rejection.

5. Applicant's arguments filed on 1/27/06 have been fully considered but they are not persuasive.

The argument that the cross-coupling of applicant's local and neighboring chips will provide a different result in comparison to cross-coupling of the prior art's local and neighboring chips is not persuasive for two reasons. First, it is improper to simply argue, when attempting to distinguish claims over prior art, the "result" obtained by an the operation of an invention. Second, applicant's assertion that the recited result will be different due to the fact that it would not be obvious to cross-couple the local and neighboring chips of the prior art is without merit because (for the reasons set forth in the above-noted rejection) there clearly will be motivation to combine the prior art. In other words, because applicant's premise is incorrect the conclusion fails by necessity. Moreover, the assertion that it would not have been obvious to combine such above-noted prior art because "it is necessary to use something similar to the fairly complicated circuit in [instant] Fig. 2" is not persuasive because instant Fig. 2 merely illustrates the details of a well-known phase detector,

and when the above-noted combination is made, a well-known phase detector would obviously be used.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kenneth B. Wells whose telephone number is (571)272-1757. The examiner can normally be reached on Monday through Friday from 8:30am to 5:00pm.
